AOU support service for students With disability/special requirement

If you have any disability that requires special requirement we are here:

- To serve you by facilitating in areas where you feel challenged either physically, mentally, emotionally or have any particular type of learning disability.
- We want to ensure that you are not disadvantaged and feel deprived of any opportunity that may impede your learning.
- We wish to provide the best possible professional services to students with special needs in a non-judgmental AND confidential environment.

In order to serve you better,

we need you to declare your special requirement by filling the disability declaration form available with the admissions.

- If you have been diagnosed of a disability anytime during the course of the programme and not at the time of admission, you may approach the student affairs office (student-affairs@aou.org.bh) or the Branch Counsellor (scu.admin@aou.org.bh) and request for the disability declaration form.
- You might be asked to provide with medical evidence of the same (officially endorsed document by a licensed and authorized doctor/therapist) in cases where it is required.

“
Our students make the actual wealth of Arab societies, therefore, caring for them and investing in them is among our priorities and basic values, which we are proud of and care about them.
”

- AOU shall accordingly make provisions based on the functional impact of the condition.
- The disability declaration form provides the student with protection from any discrimination and to determine specific provisions required to assist the student in learning.
